

An institution is but the lengthened shadow of the individuals who are its members. The recognition it achieves is the contribution of the many. And the progress of the whole is the total of the efforts of each member. Today the enlarged Eiden System, Eiden Administrative - Unit R-I, occupies an esteemed position. Its AAA rating is given to few schools by the State Department of Education. - This rating is the result of a broad view of education energetically - carried forward by faculty, students, boards of education, parents and patrons. The shadow is the influence we have made. It will lengthen as we serve. To the progress of the past and the hope for the future, we dedicate the Report of 1952.

Board of Education of Eldon Administrative Unit R-1

THE BIMINI BALL

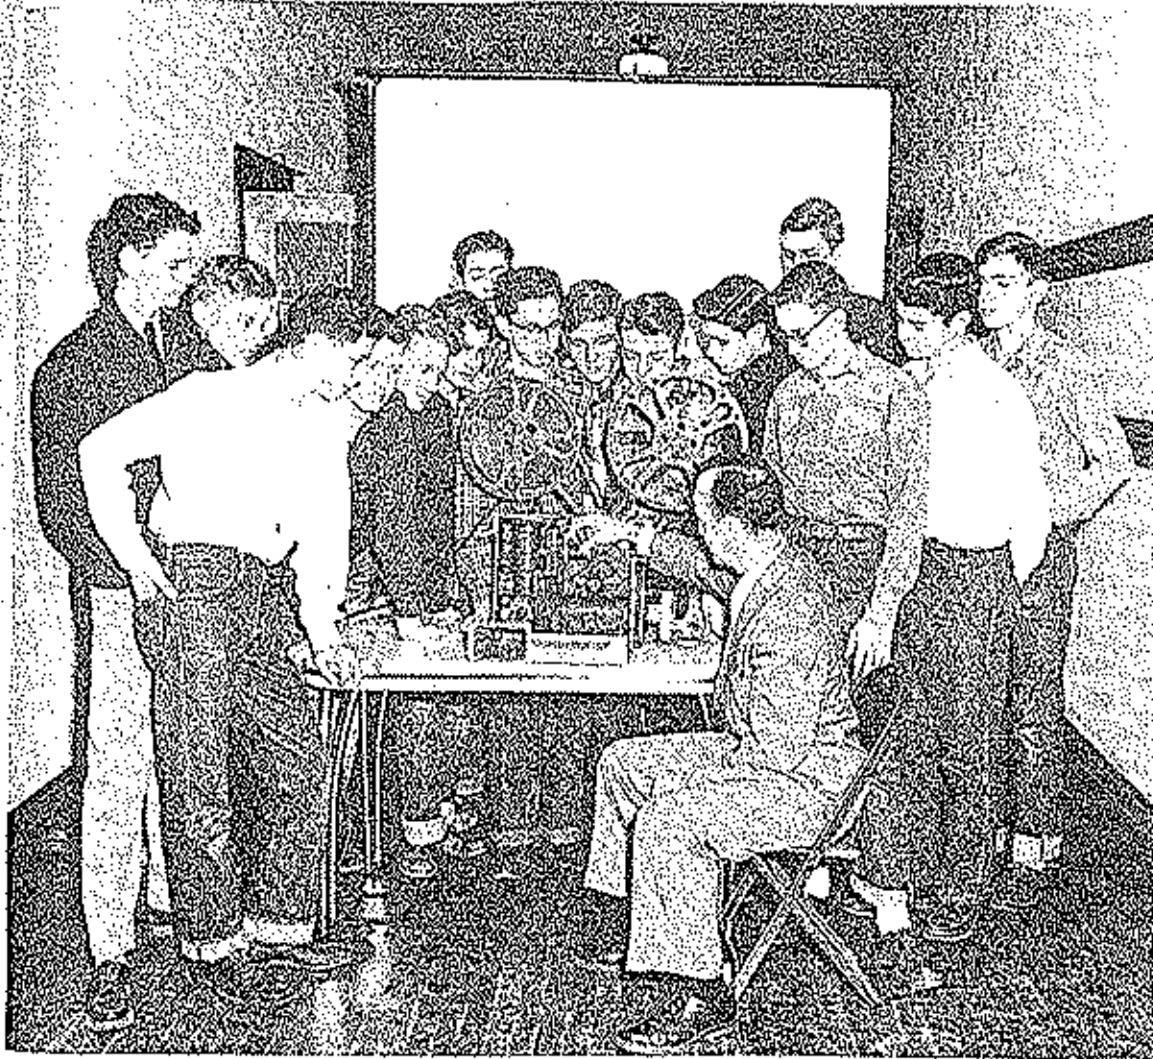

In March of 1951 the Eldon Chapter of the National Honor Society was making plans for its formal spring induction and dance. A theme was needed. The members searched for an early April date that could be commemorated.

They found that on April 8, 1513, Ponce de Leon, the Spanish Explorer, landed in Florida. The Central American Indians had told him of a marvelous fountain on an island named Bimini whose waters could restore youth. Ponce de Leon thought he had found Bimini when he came to the coast of Florida, where he searched for the famous fountain.

This was it! The Honorable Island of Bimini began to form in the minds of the Honor Society members. Committees planned eagerly and enthusiastically.

On April 5 the Bimini Ball became a reality. Our dream was transformed. Carol Vernon prepared the induction ceremony and Betty Harrison supervised the lavish decorations. President Jerry Harvey, vice president Desmond Morgan and secretary-treasurer Freda Law moved quietly through the low-hanging moss of the old trees. The vine-covered staircases, the floral centerpiece, the colorfully draped background—all were part of an exotic night which disappeared as quietly as it had come... sinking into the purple vapors.... Bimini.... Bimini.... Bimini.....
