

We, the students of Eldon High School, do hereby dedicate this book to our second foreign exchange student from Torino, Italy:

Franco Mighotto

"I feel very pleased with this year at Eldon High School. I crossed half the world, leaving my beloved parents and all my friends, and I came here to exchange my friendship and my part of Italy with you. The realization of this purpose was easy and pleasant, because here I found new parents and a lot of new friends who helped me any time I needed them. When I am back at home, I shall recall all my great experiences and let the Italian people know and appreciate them. I hope you have had some profit and more knowledge of Italy and of her people because of my being here, as I gained from you and your country, when I walked with you, talked with you, and understood you. As I leave America, I want you to know that I have appreciated and enjoyed being among you. I will remember always your community, the high school, and the faculty. But most of all I will remember with affection the fine student body who has been kind and warm to me. May I say, "Thank you," for making my life in Eldon, Missouri, a wonderful experience."
